

Office of the Chief Medical Officer of Health

# COVID-19 Screening Tool for Businesses and Organizations (Screening Patrons)

Version 1 – January 7, 2021

This screening tool can be used to screen patrons before entering a business or organization. Screening patrons before entering a business or organization is not required but is considered a best practice by the Office of the Chief Medical Officer of Health.

This screening tool is not to be used as a clinical assessment tool or intended to take the place of medical advice, diagnosis, treatment or legal advice.

The questions in this tool have been defined by the Ministry of Health. These questions can be adapted to meet the communication the needs of people with learning, developmental or cognitive disabilities.

This screening tool can be used in advance or on-site before the patron enters the business or organization. This means ensuring that the result of screening is collected and reviewed to determine whether a person may enter the business or organization.

This screening does not exempt an individual from being screened by another business or organization if the individual is seeking entry into a different premise on the same day (e.g., restaurant, arena, retail store).

This screening tool is not required for emergency services or other first responders entering a workplace for emergency purposes.

Anyone who does not pass screening should be advised they should not enter the business or organization and should self-isolate, ideally at home, and call their health care provider or Telehealth Ontario ([1-866-797-0000](tel:1-866-797-0000)) for clinical assessment.

## Required Screening Questions

**For individuals who are 18 years of age and older.**

1. Do you have any of the following new or worsening symptoms or signs? Symptoms should not be chronic or related to other known causes or conditions.

Choose any/all that are new, worsening, and not related to other known causes or medical conditions.

<p><b>Fever and/or chills</b></p> <p>Temperature of 37.8 degrees Celsius/100 degrees Fahrenheit or higher</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No

<p><b>Nausea, vomiting and/or diarrhea</b></p> <p>Not related to other known causes or conditions (for example, irritable bowel syndrome, anxiety in children, menstrual cramps)</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No
<p><b>Extreme tiredness that is unusual or muscle aches</b></p> <p>Fatigue, lack of energy, poor feeding in infants, not related to other known causes or conditions (for example, depression, insomnia, thyroid dysfunction, sudden injury)</p>	<input type="checkbox"/> Yes	<input type="checkbox"/> No

2. Have you travelled outside of Canada in the last 14 days?

If you are an essential worker who crosses the Canada-US border regularly for work, select "No".

Yes

No

3. In the last 14 days, has a public health unit identified you as a close contact of someone who currently has COVID-19?

Yes

No

4. Has a doctor, health care provider, or public health unit told you that you should currently be isolating (staying at home)?

Yes

No

5. In the last 14 days, have you received a COVID Alert exposure notification on your cell?

If you already went for a test and got a negative result, select "No."

Yes

No

## Results of Screening Questions:

- If the patron answered **NO to all questions from 1 through 5**, they can enter the business or organization.
- If the patron answered **YES to any questions from 1 through 5**, they should not enter the business or organization (including any outdoor, or partially outdoor business or facility). They should be advised to go home to self-isolate immediately, and contact their health care provider or Telehealth Ontario (1 866-797-0000) to find out if they need a COVID-19 test.
- If any of the answers to these screening questions change during the day, this screening result is no longer valid and the patron may need to screen again, wherever necessary.
- Businesses and organizations should keep records of these screening results. Records must comply with any applicable retention and privacy requirements and may be requested by the local public health unit to support case and contact tracing in the event of an outbreak.
